Congratulations on your success! The Cadillac LaSalle Club is pleased to present this Senior Badge to your car which has won First Place in a Primary Class at a CLC-judged event.

Please display the Senior designation proudly. It provides instant identification that your car has met a standard of excellence established by the CLC and is a Senior Car. The badge must be affixed to the car when it is entered at future CLC-judged events.

There is no CLC-prescribed location for the medallion. However, to ensure some consistency and speed identification the following locations are suggested:

- Back side of the inside rear view mirror
- Cowl between the hood and front door near the body molding; a desirable location for cars of the '20s and '30s
- Firewall dashboard for early cars
- Panel below the driver's seat for very early years.

Emblem-mounting, double-stick tape can be used for mounting the badge so that the car is not damaged or permanently altered. The Senior badge can also be mounted on a badge carrier and then affixed to the grille or front license plate area.

Five (5) points will be deducted during judging if the Senior badge and any associated wreath and crown are not affixed to the car when entered in any future CLC-judged event.

The Senior badge and any associated wreath and crown is awarded to the car and must transfer to the new owner when ownership of the car changes. Please retain the enclosed certificate for transfer to the new owner. **You** or the new owner should advise the CLC office of the ownership change.

Should the Senior badge and any associated wreath and crown be lost or damaged, a replacement can be obtained for \$50 per item. Contact the CLC Chief Judge if you need a replacement.

Best wishes!
