

Austin Healey

100M "LE MANS" REGISTRY

Certificate of Membership

Genuine Factory-Built Austin Healey 100M "LeMans"

This Certificate hereby registers the individual named below as the owner of one of the remaining original 640 Austin Healey 100M "LeMans" high-performance models built between 1955 and 1956 by the Austin Motor Company, Ltd. (England). This registration has been confirmed by a Production Record Trace undertaken by the British Motor Industry Heritage Trust.

These limited-production factory-built high-performance sports cars had 1-3/4" H 6 S.U. carburation and special inlet manifolds, cold air box and air tube, high compression pistons, high lift camshaft, special distributor, race-type anti-roll bar, and a factory louvered hood, with LeMans regulation strap. Those modifications increased the horsepower from 90 to 110. Each car's registered body plate number also appears on the hood left edge, back of aluminum cockpit surround trims and on the trunk lid support bracket.

This Registration Certificate entitles the automobile's owner to all the benefits of membership in the Registry, so long as it is kept current, and may be transferred to a new owner by notifying the Registry.

Car/Chassis Number 2A11/233248 Engine Number 1B/233248M Body Number 14354
